

WATCH FYRETV ON YOUR TV WITH APPLE TV AND AIRPLAY

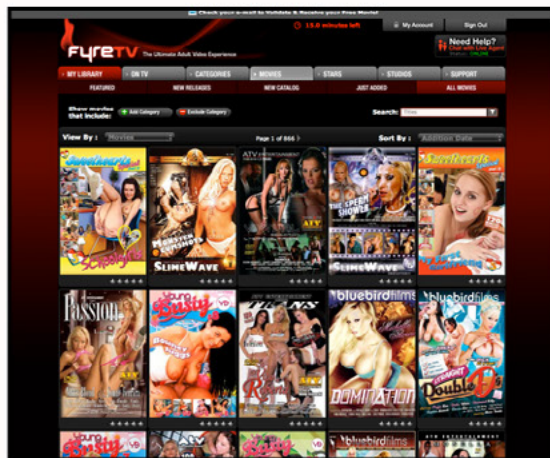

FyreTV is now available to stream on AirPlay! That means that you can now stream our extensive library right through your Apple TV! Below are instructions on how to connect Fyre and Air for an explosive combination.

1 Connect via your Mac

1. Make sure that your Mac and your Apple TV are on the same network and that AirPlay is enabled on your Apple TV. There are ample instructions on the web for how to do this.

2. Open the FyreTV app on your device, and choose a movie from our library of films.

3. Locate and tap the AirPlay icon (if attempting to AirPlay video content from Safari begin playback first).

4. Play the scene you'd like to start watching and select 'Apple TV' from the AirPlay menu.

2

Connect via your iPad

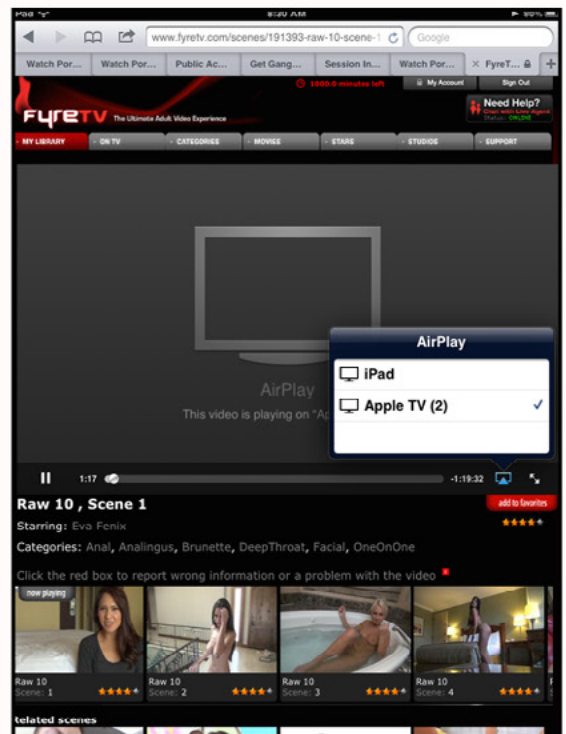

1. Make sure your iPad and your Apple TV are on the same network and that AirPlay is enabled on your Apple TV. There are ample instructions on the web for how to do this.

2. Make sure your iPad is updated to iOS 4.3+. This will not work on 4.2 or lower.

3. Open the FyreTV app on your device, and choose a movie from our library of films and begin to view it from your iPad. You will now be in play mode.

4. When you click the AirPlay icon, you should see Apple TV streaming the video.

3 Connect via your iPhone

1. Make sure your iPhone 4 and your Apple TV are on the same network and that AirPlay is enabled on your Apple TV. There are ample instructions on the web for how to do this.

2. Make sure your iPhone 4 is updated to iOS 4.3+. This will not work on 4.2 or lower.

3. Open the FyreTV app on your device, and choose a movie from our library of films and begin to view it from your iPad. You will now be in play mode.

4. When you click the AirPlay icon, you should see Apple TV streaming the video.
